SUSTAINABILITY INTERNSHIP

Birchwood Foods, a leading ground beef manufacturer with over 80 years of industry experience, is seeking passionate, team-oriented, and self-motivated interns to join our team. Gain valuable hands-on experience and learn from industry experts with a wealth of knowledge.

The Sustainability intern will engage in a variety of activities to address a wide range of sustainability initiatives. Under the direction and mentorship of our Corporate Sustainability Team, the Sustainability intern will undertake projects directed at quantifying and benchmarking current sustainability metrics and provide recommendations for continuous improvement within the framework provided.

Responsibilities:

- Collaborate with multiple departments including, Production, Quality Assurance, Procurement, Purchasing, Maintenance, Safety, and Human Resources to gather relevant data
- Carry the responsibility of database systems management and interpretation of the data, including overseeing the quality of data input into ERP systems and devising innovative methods of monitoring sustainability performance
- Develop relationships and collaborate with multiple departments to better understand the industry as a whole and provide relevant recommendations for continuous improvements of Birchwood Foods' sustainability initiatives
- Contribute to design, development and implementation of sustainability practices based on current trends such as social media, campus initiatives, generational views, etc.

Requirements:

- Undergraduate or graduate student in a sustainability-related field.
- Excellent oral and written communication skills
- Strong analytical reasoning or problem-solving skills
- Interest in environmental and/ or sustainability activities
- Ability to work with people at all levels of the organization
- Cumulative GPA of 3.0 or above.

Duration:

- 12-week program will run from May 2020 to August 2020
